Summary

Passionate MERN Stack Developer with a strong foundation in web development. Skilled in MongoDB, Express.js, React.js, and Node.js. Seeking an opportunity to apply and expand my skills in a collaborative environment.

Projects

To-Do App (MERN Stack)
Developed a full-stack to-do app using the MERN Stack with CRUD operations and a clean, responsive UI. Focused on smooth user interactions and state management using React Hooks.

E-Commerce Website (MERN Stack)
Built a modern e-commerce platform with product filters, a cart system, and a smooth user experience. Implemented responsive design and optimized front-end performance using React.js.

Prolex Website (React)
Created a responsive company website using React.js, focusing on reusable components and SEO. Designed clean layouts with smooth navigation and interactive elements.

SudoTechLabs Website (React + Vite + TypeScript + Tailwind CSS)
Developed a high-performance website using modern frontend tools for speed and scalability. Implemented a minimalist UI with animations and responsive design for all devices.
